Hog Cholera Appears In Appomattox
With six fine hogs already dead, and others dying, an epidemic of hog cholera has been the cause of much concern here. At the county agent's office this morning, it was stated that 34 head of hogs had been fed on garbage from the local CCC camp and developed the most violent form of hog cholera. The hogs on this farm have been vaccinated, as have been others in this vicinity and it is hoped that the epidemic can be checked. However, there is grave danger that it will spread to other farms. Hog cholera can be carried from place to place by dogs, wheels of vehicles or by the feet of persons walking over an exposed area. It is advised not to walk across a lot where hogs have been sick.

Among the well known artists appearing with the circus are: the clever tight-rope performers Moxons, the trapeze act, Willis and Edwin, the aerial horizontal bar performers; Rafallo, and many others. And for the lovers of trained animals, the circus presents Tolson's Bears, with Chubbie, the wire walk being trained; Combs' Animals, which were a feature at Luna Park, Coney Island and the African beach jungle lion, Zaki, presented by his trainer, Captain Meyer. An afternoon and evening performance will be presented at the high school grounds, it is probable that a parade will be held in the morning.

Rooster Is A Mother!!
Last month the press carried articles about "Shroeter," a barnyard fowl on the farm of E. E. Harrison in New Kent county, which laid eight eggs between the masculine and feminine of the fowl. The conventional family of hens, called "Shroeter" by the Harrison family and their neighbors, watched Shroeter at the very ritual of egg-laying. There were eight eggs. The family ate one and found all the others could be desired and another was broken. The remaining six eggs were put under a brooding hen for hatching. Last week the six eggs hatched a rooster. It is a mother!
